STATEMENT OF PERTINENT FACTS ACCOMPANYING
PETITION PURSUANT TO 37 C.F.R. 1.47(a)

I, Robert H. Kelly, affiant herein, hereby state and declare as follows:

1. I am a registered patent attorney, registration No. 33,922. I prepared and filed the subject patent application on behalf of the assignee, Nokia Corporation.
2. The subject patent application was filed under 35 U.S.C. §371, based upon a priority application, International Application No. PCT/IB00/00962. The international application claimed

the priority of a corresponding Great Britain patent application, application number 9915593.9, filed on 2 July 1999.

3. Nokia Corporation is the assignee, by operation of law and contract of all of the entire ownership rights of the subject patent application.

4. The invention disclosed in the specification and recited in the claims of the subject patent application was invented by the named co-inventors. Namely, the co-inventors of the subject patent application are: Mikko Rinne and Amit Mate.

5. Both of the co-inventors were employees of the assignee, Nokia Corporation, when the subject patent application was invented.

6. Co-inventor Amit Mate was employed by the Nokia Corporation as a research engineer in the corporation's research center, located at Lauttasaari, Finland, between 1 January 1999 and 24 November 2001.

7. By employment contract agreement dated 3 November 1998, co-inventor Amit Mate agreed to be bound by the instructions and regulations in effect at the Nokia Corporation. A copy of the employment contract is attached hereto as Exhibit A.

8. Responsive to instructions that I received on 21 December 2001, I filed the subject patent application with the United States Patent and Trademark Office on 31 December 2001. The application was filed without an executed declaration or assignment document.

9. On 2 January 2002, I forwarded an assignment document and a declaration for execution by the co-inventors.

10. Upon information and belief, a first effort was made by personnel of the Nokia Corporation to contact the co-inventors to obtain their execution of the documents immediately thereafter.

11. Upon information and belief on, or about, 17 April 2002, a reminder was forwarded to the co-inventors to execute the assignment and declaration documents.

12. On, or about, 2 August 2002, the documents forwarded to co-inventor Amit Mate were returned to the Nokia Corporation as undeliverable to the co-inventor. Declaration and Assignment documents provided to co-inventor Mikko Rinne had, however, been executed and returned.

13. By correspondence dated 8 August 2002, I prepared the declaration, enclosed herewith under separate title, for signature by the available co-inventor Mikko Rinne, to execute on behalf of the unavailable co-inventor Amit Mate.
